

Multi-Flow Installation Contractor List

The names below are taken from our contractor list. We hope that one of them can help you with your drainage project. Most of these contractors do not stock our product but have bought it from us for previous projects. In many cases, we do not have first hand information about the quality of their work but have had good reports. This list is supplied as a convenience but not as an endorsement. There is no contractual relationship between Varicore and these contractors. We have attempted to identify the kind of jobs each contractor is best suited to. Each has been assigned to one or more categories:

Landscape ----- (e.g. residential/commercial landscapes)

Turf ----- (e.g. athletic fields, golf courses, parks)

Civil ----- (e.g. earthen dams, roads, parking lots, landfill sites)

If there is no one listed from your area, remember, any good landscape professional can install a Multi-Flow system.
